

Software First, Digital Always How Software accelerates Next Generation Mobility

Dr. Christian Müller | Corporate R&D | ZF Group

## The Car Becomes Part of our Everyday Infrastructure

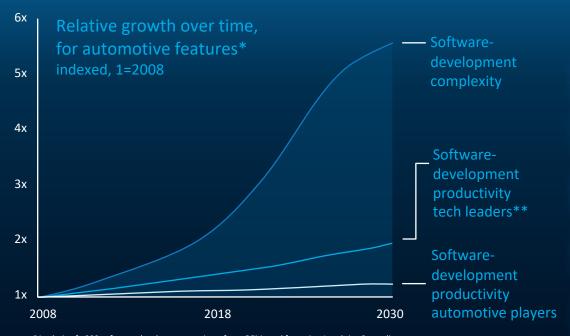

## Software is Driving Next Generation Mobility at ZF: Leveraging Vehicle System Expertise for Disruptive SW Functions

## Managing the new SW paradigm

## Complexity dilemma

 $<sup>\</sup>hbox{*Analysis of >} 200 \ software-development projects from OEMs and from tier-1 and tier-2 suppliers.$ 

### Transformation need

- New EE-Architectures & HPC
- Connectivity & Cloud
- SW / HW Separation & SWaaX
- Shared Platforms & Development Kits
- Community Mindset & People

<sup>\*\*</sup>Top-performing quartile of technology companies.

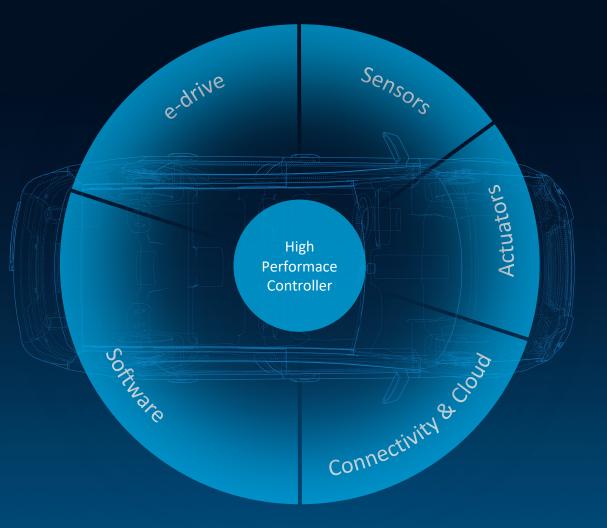

360° offering for Software-defined Vehicles

## Focus areas:

Software solutions

Connectivity

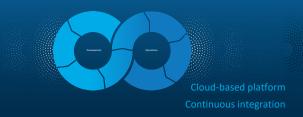

- Computing
- ▶ power

## Software-enabled Acceleration

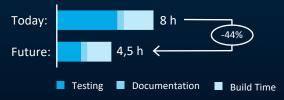

#### DevOps development approach

#### **Benefits**

- Agile development and higher robustness
- Improved international collaboration
- Higher efficiency, quality and transparency

#### Integration time

#### Frontloading Middleware

#### Benefits:

- Shortened starting phase of projects
- Earlier supply of software on target hardware
- No gateway workaround solutions needed

#### Delivery time

Future software kit enables high product maturity and reduction of delivery time

## **Functional Development Kit**

FDK not limited to Middleware also for Classic Architecture

With the Function Adapter, ZF already equips each function with the appropriate connector for every interface in SdV-platforms

```
Tror_mod.use_x
rror_mod.use_y = True
rror mod.use z = Fals
operation == "MIRROR Z"
 rror_mod.use_x = False
 rror_mod.use_y = False
 rror mod.use z = True
 election at the end -add
  ob.select= 1
 er ob.select=1
  text.scene.objects.act
  'Selected" + str(modifie
  irror ob.select = 0
bpy.context.selected_obj
 ata.objects[one.name].sel
 int("please select exactle
 -- OPERATOR CLASSES ----
```

# Summary

- Software efforts will grow above average
- Companies work on components in the software ecosystem (non differentiating)
  - Join forces with "code first" inner and open source approach leverages individual efforts

clean, safe, comfortable
